

Biodiversity Listservs

There are several [BRC mailing lists](#) that we use to announce seminars/discussion groups related to ecology, evolution, systematics, conservation, and biodiversity. If you are interested in receiving email about the following and have not already subscribed, please see the instructions below.

Posting to these email lists is **only possible** if you have subscribed to the list and if you send emails from the email address that you used to subscribe. To subscribe to list "thename", please send email to thename-request@zoology.ubc.ca with the word "subscribe" as the subject (dropping the quotation marks). To get off the list, do the same, with "unsubscribe" as the subject (must be sent from the email used on the list).

"research": The main mailing list for [Biodiversity Centre activities](#), including the Biodiversity Research [seminar series](#) on Wednesdays. [To subscribe, write to research-request@zoology.ubc.ca. To send general biodiversity-related announcements, email_research@biodiversity.ubc.ca]

Occupants of the Biodiversity Research Centre are included in a separate listserv. For building related matters, email_building@biodiversity.ubc.ca (if you don't seem to be receiving any building related emails even though you work in the building, you can add yourself by emailing building-request@zoology.ubc.ca with subscribe as the subject).

If you use the BRC autoclaves, you must sign up for the Autoclaves Listserv (autoclaves@biodiversity.ubc.ca) to receive information about service disruptions, monthly testing, upcoming maintenance, etc. Once added, you can also use this mailing list to ask for assistance on the autoclaves. To add yourself to the mailing group, please send an email to autoclaves-request@biodiversity.ubc.ca with the word "subscribe" as the subject (dropping the quotation marks). To remove yourself from the list, do the same with "unsubscribe" as the subject.

Other listservs:

"grads": Grad students

"postdocs": Postdocs

"statschat": Stats Discussion Group

"conservation": The Conservation Discussion Group

"edg": The Friday evolution journal club (<http://www.zoology.ubc.ca/edg>)
